EDUCATION

Rochester Institute of Technology (RIT)

Bachelor of Science in Software Engineering, Minor in Anthropology and Sociology

GPA: 3.7

May 2027 | Rochester, NY

PROFESSIONAL EXPERIENCE

Travelers

Jun 2026 – Aug 2026 | Hartford, CT

Engineering Development Program Intern

- Maintained and supported the **SQL Server** database backing Risk Management Information Systems (RMIS), writing and modifying stored procedures to support application functionality
- Developed and monitored **Autosys** batch jobs to automate data processing workflows, ensuring reliable and timely execution of scheduled database tasks
- Actively engaged in Agile practices, including sprint refinement, retrospectives, planning, and continuous process improvement

Belden Inc.

Sep 2025 – Dec 2025 | Rochester, NY

Software Engineering Co-op

- Engineered full-stack features for OpenPath using **Angular** and **Golang**, resolving user-reported bugs and stabilizing the application's core functionality
- Automated tasks with **Python** and **Bash** scripts, improving developer workflows and reducing manual effort
- Participated in daily stand-up, created and tracked issues, and collaborated with the team in an Agile environment

Ridgeline International, LLC

Jun 2024 – Dec 2024 | Tysons, VA

Software Engineering Intern

- Contributed to the development of the company's software suite, implementing multiple new features and enhancements on both the frontend using **Angular** and the backend using **Java** and **Spring**
- Collaborated closely with a small team of full-time engineers, utilizing **GitLab** for version control and **Jira** for task management and sprint planning within a **SAFe Agile framework**
- Worked with my team to increase API code coverage by **15%** through unit testing
- Regularly participated in stand-up, providing progress updates to the development team

PROJECTS

LocalLore

Sep 2025

- Built a **full-stack** web application at Cornell Big Red Hacks to crowdsource and share hidden-gem entertainment spots
- Designed and implemented a **RESTful API** with **ASP.NET Core** to handle user-submitted metadata (locations, photos, categories), integrating with **MongoDB Atlas** for cloud data storage
- Developed the frontend with **React** and Leaflet.js to provide an interactive map where users can drop markers, favorite, and filter locations

SKILLS

Programming Languages: Python, Java, C, Golang, HTML/CSS, JavaScript, TypeScript, SQL

Technologies/Frameworks: PostgreSQL, MySQL, Angular, Flask, React, Express, .NET, MongoDB, Spring, Gradle, Maven, Git, Docker, GitHub Actions, GitLab CI/CD, Linux

Methodologies: Agile, Waterfall, Scrum, Kanban, Scaled Agile Framework (SAFe)

EXTRACURRICULARS

Computing Organization for Multicultural Students (COMS)

May 2025 – Apr 2026 | Rochester, NY

President

- Led and represented an organization focused on empowering underrepresented students in computing through community engagement and professional development
- Spearheaded new initiatives, collaborated with the 8 executive board members, and managed official communications to support organizational growth and member engagement
